

Explosives Transport Safety Management Plan Template

1. Company Information

- Company Name:
- Licence Application Reference:
- Operating Address:
- Authorised Representative:
- Contact Details:

2. Risk Management Procedures

2.1 Risk Assessment

- Identified hazards during transport operations
- Risk evaluation matrix
- Control measures for each identified risk
- Regular review schedule

2.2 Safety Policies and Procedures

- Standard operating procedures for:
 - Pre-transport checks
 - Loading and unloading procedures
 - Vehicle inspection protocols
 - Communication protocols during transport
 - Documentation requirements
 - Compliance with time and route restrictions

3. Emergency Response Plan

3.1 Spillage Control

- Detailed spillage containment procedures
- Required containment equipment
- Staff responsibilities
- Notification procedures

3.2 Fire Safety

- Types and locations of firefighting equipment
- Fire response procedures
- Emergency contact numbers
- Evacuation protocols

3.3 First Aid

- First aid kit requirements and locations
- List of trained first aiders
- Emergency medical procedures
- Nearest hospital routes

3.4 Evacuation Procedures

- Emergency assembly points
- Evacuation routes
- Communication procedures
- Emergency services coordination

4. Compliance Monitoring

- Internal audit procedures
- Inspection schedules
- Non-compliance reporting
- Corrective action procedures
- Record keeping systems

Explosives Transport Security Plan Template

1. Security Risk Assessment

1.1 Risk Identification

- Potential security threats
- Vulnerability assessment
- Impact analysis
- Risk mitigation strategies

1.2 Security Systems and Facilities

- Physical security measures
- Electronic surveillance systems
- Access control systems
- Security personnel deployment

2. Personnel Security

2.1 Authorised Personnel

- List of approved personnel
- Security clearance status
- Roles and responsibilities
- Access levels

2.2 Training and Awareness

- Security awareness training
- Emergency response training
- Refresher training schedule
- Training records maintenance

3. Transport Security Details

3.1 Route Planning

- Detailed route descriptions
- Alternative routes
- Rest stop locations

- High-risk area identification
- Compliance with route restrictions

3.2 Vehicle Security

- Vehicle specifications
- Security features
- Tracking systems
- Communication equipment

3.3 Operational Security

- Loading/unloading security procedures
- Armed escort arrangements (for high-risk explosives)
- Communication protocols
- Emergency procedures

4. Record Keeping

4.1 Documentation

- Transport documentation
- Security incident reports
- Training records
- Inspection records
- Maintenance logs

4.2 Review and Updates

- Regular review schedule
- Update procedures
- Incident analysis
- Improvement recommendations
