The Licensee shall ensure that his selected vendor conducts the measurement by using two (2) separate sound meters, one placed inside the licensed premises and one placed at the boundary of the licensed premises. The locations where the two (2) sound meters are placed shall be approved by the Licensing Officer or an authorised officer appointed by the Licensing Officer.

2 The Licensee shall require his selected vendor to produce sound from the Licensee's usual sound equipment in the licensed premises at an increasing volume until the noise level measured at the boundary registers 65dBA for Leq (5 minutes). The noise level measured within the licensed premises shall then be recorded, and this value shall be the Internal Noise Threshold for the licensed premises. Records of the time-stamped noise measurements shall be printed from both sound level meters' logged memory or software, and attached to Annex E where possible.

3 The Licensee shall acknowledge two (2) copies of the Internal Noise Threshold form as shown in Annex E, both of which shall be completed by the selected vendor and witnessed by the Licensing Officer or an authorised officer appointed by the Licensing Officer.

The location where the Class 1 sound meter is placed shall be approved by the Licensing Officer or an authorised officer appointed by the Licensing Officer.

6 The readings recorded by the Class 1 sound level meter at any point in time shall be presumed, until proven otherwise, to be the level of noise within the licensed premises at that particular point in time for the purposes of these conditions.

7 The Licensee shall subscribe to the noise measurement and monitoring service provided by his selected vendor.

8 The Licensee shall install a CCTV camera to surveil the Class 1 sound level meter and shall, unless otherwise exempted by the Licensing Officer, ensure that, at all times, there is a clear line of sight to the Class 1 sound level meter. This CCTV camera shall be switched on and in a recording mode at all times unless there are reasonable circumstances or unless otherwise exempted by the Licensing Officer.

9 The Licensee shall ensure that all video recordings captured by the CCTV camera are stored and retained for at least thirty (30) days from the date of the recording.

11 Unless otherwise exempted by the Licensing Officer, the Licensee shall ensure that the Class 1 sound level meter, and the CCTV camera surveilling the Class 1 sound level meter, remain in good working condition at all times, and shall maintain and replace the same if and when necessary.

12 The Licensee shall not tamper and shall not permit anyone to tamper with the Class 1 sound level meter.
